- 4) A.Gnana Tamilaran

1. INTRODUCTION

1.1 OVERVIEW :

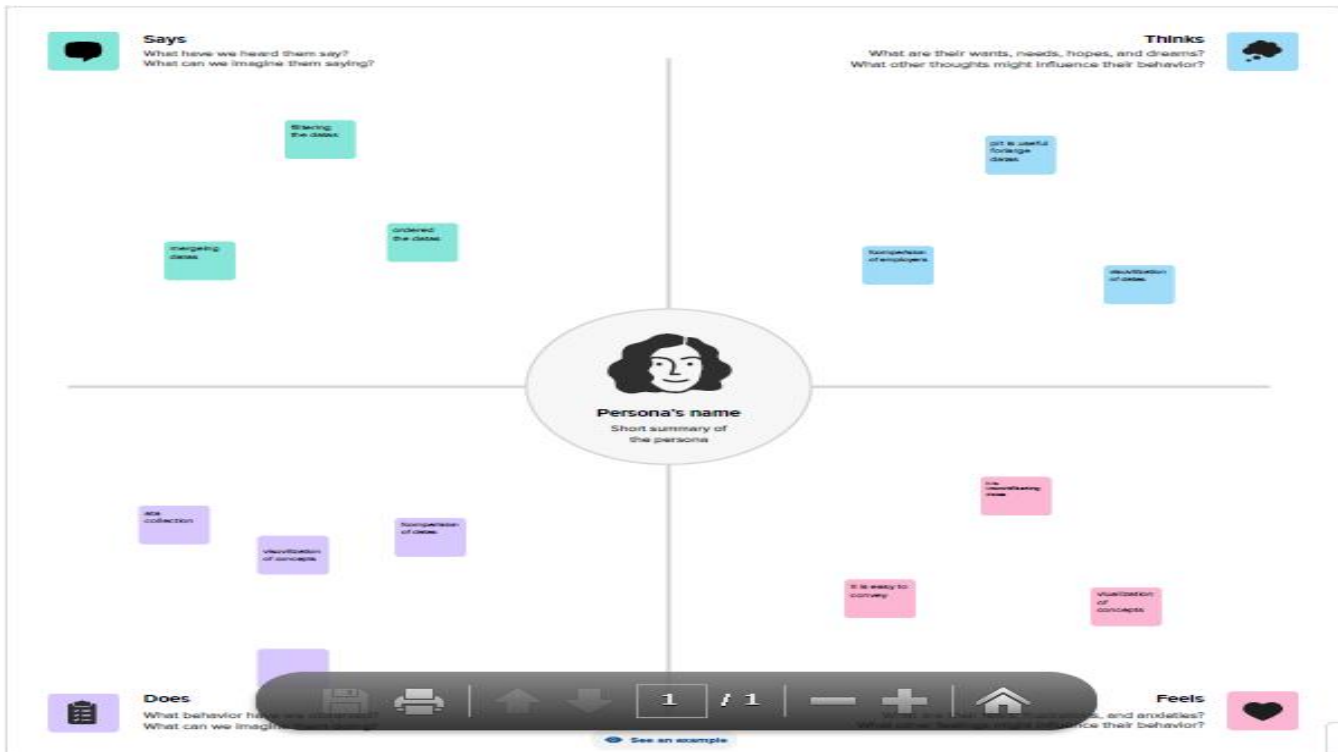

My project name is **Estimation of Business Expenses**. You'll see the annual pay roll, Advertisement cost, contract (labour Vs employee), employee cost (insurance Vs pension), equipment cost, Fuel, Maintenance of Building, power expenditure, Rental payment of machinery, Taxes and Licenses, transportation . This integration enhances their overall business efficiency and contributes to their success in the interior design industry and businesses.

1.2 PURPOSE :

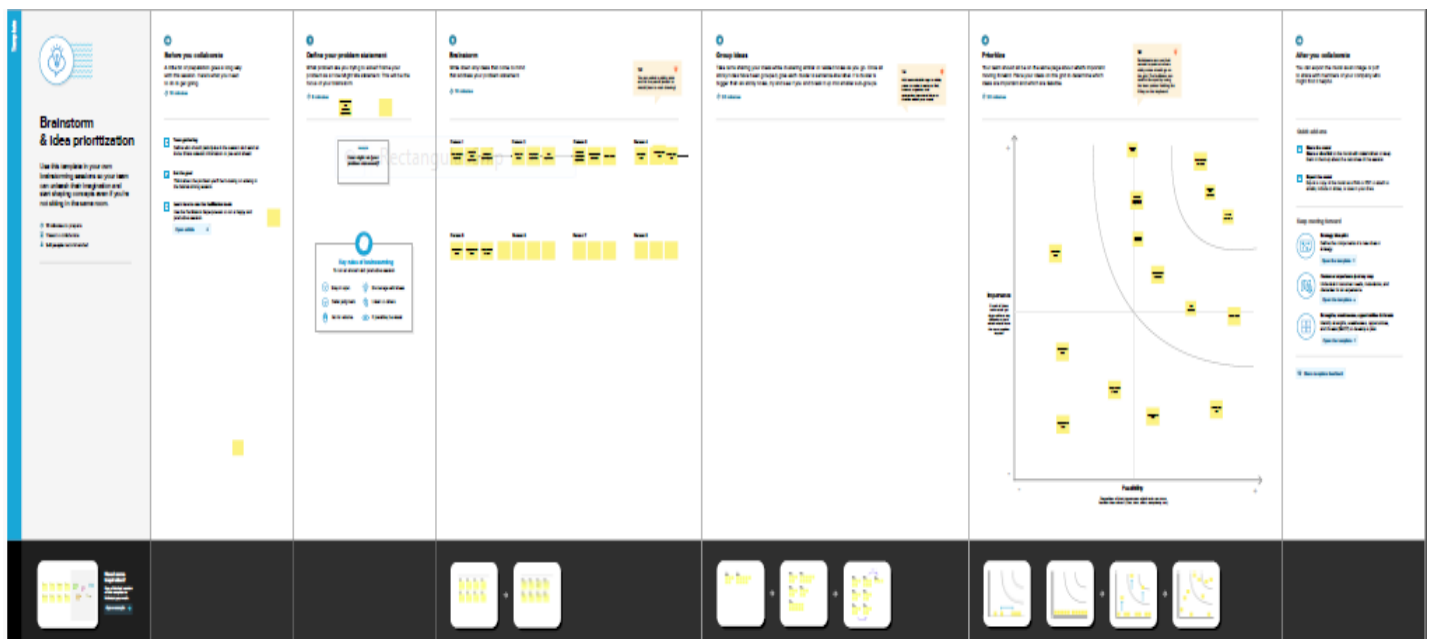

Estimation of Business Expenses helps you determine your project's budget, schedule the work necessary and manage new resources. Estimates are also very crucial when it comes to winning new business. Property owners also use estimates to assess the feasibility of their projects before embarking on actual construction.

4. ADVANTAGES & DISADVANTAGES

Advantages:

In a software tableau learn about how to start a business and growth expected in the next decade, the career options and diversity in the field of interior design are expenditure. With the growing demand for interior business as a career and as an art, the relevance of the field in contemporary a how to life has reached a strong point. An tableau is provided with the opportunity to work under different styles for distinct lifestyles, enabling them to avoid redundancy and repetition in the design and development.

Disadvantages:

- It's a Stressful Job. Satisfying a client's specific requirements is not an easy task.
- Problematic Clients. Another one of the disadvantages of being the expenses of Business is that not every client will be good.
- It Takes Time.
- Long Working Hours.

5. APPLICATIONS

TABLEAU, MURAL, GIT HUB are used to applied the solution.

6. CONCLUSION

A cost sheet analyzes the components of cost in order to show the per-unit cost for a given product. Business managers use cost sheets as reference documents to help manage purchasing and production costs, and to find the right selling prices for products and services. While there are other ways to manage costs, most companies choose to use cost sheets because it's an efficient way to track and control different kinds of costs.

7. FUTURE SCOPE

Tableau developers have a range of job titles to choose from – computer architect, business intelligence developer, business objects developer, data analyst, and micro strategy developer. Once you become a certified professional in Tableau from a reputable institute, your options are endless.
